

**ZIPPER WIRELESS UPGRADE KIT**

Upgrade kit for Kockon Mach II base modules. Consists of a self closing ventilated fuel cap without lock with a built in electronic activation switch and wireless transmitter which can be used to trigger events upon fuel cap opening. Includes its own receiver unit and buzzer which warns the vehicle cabin occupant of cap opening. Can be fitted through a rapid mounting procedure by the end user without having to remove the Kockon from its installed position.

Fits all MACH II base modules. Upgrade can be executed without proprietary tools by the end user.
